English

Turkish

Spanish

PROFILE

Introduction:

My name is Albert Sezkir, and I am 37 years old. Originally from Landskrona, I have been living in Stockholm for the past seven years. I am fluent in Swedish, English, and Turkish, and I am currently studying Spanish.

I have a background in Business Studies from Landskrona and am known for my attention to detail, punctuality, reliability, and putting people first. I am fully committed to giving my best in any future internship or role at your company.

Current Situation and Career Transition:

Currently, I am a full-time firefighter at the Sollentuna Fire Station, a position I have held for nearly ten years. I am on a leave of absence to focus on my studies and also work part-time at Huddingehallen swimming pool.

After much consideration, I decided to change careers, driven by a long-standing interest in computers and technology. I am currently expanding my knowledge in JavaScript, React, and Node.js to deepen my understanding of system development.

In 2023, I began studying C# backend development remotely through Arena.

In August 2023, I chose to pursue further studies at KYH Liljeholmen as a JavaScript Front-End Developer. I am now seeking an internship starting from November 25, 2024, to April 11, 2025, where I can apply my skills and grow professionally.

I am dedicated to giving 100% to both my studies and any opportunity I receive with your company. I hope this letter has captured your interest, and I look forward to the possibility of working with you.
